

UNIVERSIDAD PERUANA DE CIENCIAS APLICADAS

Facultad de Ingeniería
Carrera de Ingeniería de Software

Ciclo 2026-02

Curso: 1ASI0729 - Desarrollo de Aplicaciones Open Source (NRC 7737)

Informe de Trabajo Final

Profesor: Ivan Robles Fernández

Startup: GreenDream

Producto: CultivaTech

Integrantes:

U202418405 - Condor Sandoval, Jean Pierre
U20231C995 - Munayco Apolaya, Maria Luisa
U202114790 - Santos Minaya, Renzo Peiro
U202318612 - Retuerto Rodriguez, Jorge Manuel
U20241B885 - Silva Hualpa, Rosangela Karen

Agosto 2026

Índice General

Registro de informe	3
Student outcome	3
Capítulo I: Introducción	3
1.1. Startup Profile.	3
1.1.1. Descripción de la Startup.	3
1.1.2. Perfiles de integrantes del equipo.	3
1.2. Solution Profile.	3
1.2.1 Antecedentes y problemática.	3
1.2.2 Lean UX Process.	3
1.2.2.1. Lean UX Problem Statements.	3
1.2.2.2. Lean UX Assumptions.	3
1.2.2.3. Lean UX Hypothesis Statements.	3
1.2.2.4. Lean UX Canvas.	3
1.3. Segmentos objetivo.	3
Capítulo II: Requirements Elicitation & Analysis	3
2.1. Competidores.	3
2.1.1. Análisis competitivo.	3
2.1.2. Estrategias y tácticas frente a competidores.	3
2.2. Entrevistas.	3
2.2.1. Diseño de entrevistas.	3
2.2.2. Registro de entrevistas.	3
2.2.3. Análisis de entrevistas.	3
2.3. Needfinding.	3
2.3.1. User Personas.	3
2.3.2. User Task Matrix.	3
2.3.3. User Journey Mapping.	3
2.3.4. Empathy Mapping.	3
2.4. Big Picture Event Storming.	3
2.5. Ubiquitous Language.	3
2.5. Ubiquitous Language.	3
Capítulo III: Requirements Specification	3
3.1. User Stories.	3
3.2. Impact Mapping.	3
3.3. Product Backlog.	3
Capítulo IV: Product Design	3
4.1. Style Guidelines.	3
4.1.1. General Style Guidelines.	3
4.1.2. Web Style Guidelines.	3
4.2. Information Architecture.	3
4.2.1. Organization Systems.	3
4.2.2. Labeling Systems.	3
4.2.3. SEO Tags and Meta Tags.	3
4.2.4. Searching Systems.	3
4.2.5. Navigation Systems.	3
4.3. Landing Page UI Design.	3
4.3.1. Landing Page Wireframe.	3
4.3.2. Landing Page Mock-up.	3
4.4. Web Applications UX/UI Design.	3
4.4.1. Web Applications Wireframes.	3
4.4.2. Web Applications Wireflow Diagrams.	3
4.4.2. Web Applications Mock-ups.	3
4.4.3. Web Applications User Flow Diagrams.	3

4.5. Web Applications Prototyping.	3
4.6. Domain-Driven Software Architecture.	3
4.6.1. Design-Level Event Storming.	3
4.6.2. Software Architecture Context Diagram.	3
4.6.3. Software Architecture Container Diagrams.	3
4.6.4. Software Architecture Components Diagrams.	3
4.7. Software Object-Oriented Design.	3
4.7.1. Class Diagrams.	3
4.8. Database Design.	3
4.8.1. Database Diagrams.	3
Capítulo V: Product Implementation, Validation & Deployment	3
5.1. Software Configuration Management.	3
5.1.1. Software Development Environment Configuration.	3
5.1.2. Source Code Management.	3
5.1.3. Source Code Style Guide & Conventions.	3
5.1.4. Software Deployment Configuration.	3
5.2. Landing Page, Services & Applications Implementation.	3
5.2.1. Sprint n	3
5.2.1.1. Sprint Planning n.	3
5.2.1.2. Aspect Leaders and Collaborators.	3
5.2.1.3. Sprint Backlog n.	3
5.2.1.4. Development Evidence for Sprint Review.	3
5.2.1.5. Execution Evidence for Sprint Review.	3
5.2.1.6. Services Documentation Evidence for Sprint Review.	3
5.2.1.7. Software Deployment Evidence for Sprint Review.	3
5.2.1.8. Team Collaboration Insights during Sprint.	3
Conclusiones	3
Conclusiones y recomendaciones.	3

Student outcome

Capítulo I: Introducción

1.1. Startup Profile.

1.1.1. Descripción de la Startup.

1.1.2. Perfiles de integrantes del equipo.

1.2. Solution Profile.

1.2.1 Antecedentes y problemática.

1.2.2 Lean UX Process.

1.2.2.1. Lean UX Problem Statements.

1.2.2.2. Lean UX Assumptions.

1.2.2.3. Lean UX Hypothesis Statements.

1.2.2.4. Lean UX Canvas.

1.3. Segmentos objetivo.

Capítulo II: Requirements Elicitation & Analysis

2.1. Competidores.

2.1.1. Analisis competitivo.

2.1.2. Estrategias y tácticas frente a competidores.

2.2. Entrevistas.

2.2.1. Diseño de entrevistas.

2.2.2. Registro de entrevistas.

2.2.3. Análisis de entrevistas.

2.3. Needfinding.

2.3.1. User Personas.

2.3.2. User Task Matrix.

2.3.3. User Journey Mapping.

2.3.4. Empathy Mapping.

2.4. Big Picture Event Storming.

2.5. Ubiquitous Language.

2.5. Ubiquitous Language.

Capítulo III: Requirements Specification

3.1. User Stories.

3.2. Impact Mapping.

3.3. Product Backlog.

Capítulo IV: Product Design

4.1. Style Guidelines.
